Decision Making

Problem Solving

PROFILE

Motivated and detail-oriented front-end developer with a strong foundation in HTML, CSS, and JavaScript. Skilled in creating responsive and dynamic web applications, ensuring seamless user experiences. Adept problem solver with a proven ability to troubleshoot and resolve technical issues efficiently. Committed to continuous learning and keeping up-to-date with industry trends and best practices.

EXPERIENCE

Vain Innovations

June 2023- Sept 2023

- Completed a three-month internship as a member of the Frontend Team, focusing on the development and enhancement of the admin portal.
- Collaborated with senior developers to implement new features and optimize existing functionalities using HTML, CSS, and JavaScript.
- Gained hands-on experience in real-world projects, improving problem-solving skills and proficiency in frontend technologies.

PROJECTS

Apple Vison Pro ([Link](#))

- Developed a pixel-perfect clone of the Apple Vision Pro website using HTML, CSS, and JavaScript, replicating its sleek and modern design.
- Implemented advanced animations using GSAP (GreenSock Animation Platform) to create smooth, high-performance transitions and interactive effects.
- Ensured responsive design, making the website fully functional and visually appealing across various devices and screen sizes.
- Optimized performance by utilizing best practices in coding and resource management to achieve fast load times and efficient functionality.
- Integrated interactive elements, including dynamic content updates and user-triggered animations, enhancing user engagement and experience.
- Collaborated with a version control system (e.g., Git) to manage code efficiently, track changes, and facilitate teamwork.

Hotel Odisej Clone ([Link](#))

- Created a detailed clone of the Hotel Odisej website using HTML, CSS, and JavaScript, accurately replicating its design and layout.
- Utilized GSAP (GreenSock Animation Platform) to develop smooth and engaging animations, enhancing the overall user experience.
- Developed a responsive layout, ensuring optimal performance and visual appeal on various devices and screen sizes.
- Incorporated interactive features such as image sliders, booking forms, and navigation menus, providing a seamless user interface.
- Optimized code for performance, focusing on reducing load times and improving site speed through efficient coding practices.
- Managed project versions using Git, maintaining a clean codebase and facilitating easy collaboration and version tracking.
