FULL STACK DEVELOPER

Innovative, results-driven MERN Stack Developer with a passion for crafting robust, user-centric applications. Currently contributing expertise and dedication to Optimanage Software in Bhopal, adept at leveraging modern technologies to engineer high-quality solutions that drive business growth and user engagement. Possessing a keen eye for detail and a commitment to staying abreast of industry trends, I consistently deliver scalable, efficient, and intuitive software applications. Seeking to further apply my skills and contribute value to innovative projects in a dynamic professional setting.

SKILLS

Html	NodeJS	Embedded JavaScript template(Ejs)
Css	ExpressJS	React.js
JavaScript	MongoDB	Next.js

PROJECTS

LocalCrafts

Crafted a full-stack web application, akin to a prominent Indian internship and job search platform, using MongoDB and EJS. This project showcases a dynamic e-commerce experience, enabling users to post products and seamlessly apply for jobs, all within the LocalCrafts ecosystem.

FriendHub

FriendHub is your digital destination for building and nurturing connections with friends, family, and acquaintances. This user-friendly social networking platform provides a space where you can create an account, post pictures, and upload profile pictures with ease

MoviePoint

Movie Point is an innovative and user-friendly platform designed for all movie enthusiasts and cinephiles. This project allows users to access a vast library of movies, where they can not only see movie ratings but also watch trailers.

Optimanage software private limited

Nov 2023 - Present

EXTRACURRICULAR ACTIVITIES

Freelance React JS Developer for Krishig Startup

As a freelance React JS developer, I designed and developed an admin panel for Krishig, a startup, using provided APIs. This project honed my React JS skills and exposed me to the startup ecosystem, enhancing my web development expertise.

Freelance Node.js Developer for Xpital

As a freelance Node.js developer, I worked on backend development for Xpital. This experience strengthened my Node.js skills and provided valuable contributions to a startup.
