- Next.js, React.js, Routing

Education:

- Master's Degree in MCA
  2023
  RGPV University
  7.87

- Bachelor's Degree in B.sc (cs)
  2021
  Barkatullah University Bhopal
  72.18%

- Higher Secondary Examination
  2018
  M.P Board
  79%

- High School Examination
  2016
  M.P Board
  81%

Training:

1 year of certificated training in full-stack web development from Sheryians Coding School.

Projects:

➤ Internshala Clone-

Developed a website where employers may post their internship and job requirements and students can browse and apply for available positions. used new web technologies expertly and had a thorough understanding of both front-end and back-end development to produce a user-friendly and useful application.

Using Node.js, Express.js, and REST APIs Next.js, MongoDB, React.js and Redux Toolkit.

➤ For Chat-

Node.js, Express.js, and MongoDB were used to create a chat web application, and Passport.js was used to establish secure user authentication. achieved a WhatsApp-like user interface for a seamless conversation experience. Integrated Socket.io for real-time messaging and CSS and EJS to make a visually beautiful and interactive user experience that allowed users to sign up, log in, and have one-on-one chat conversations.

Using Node.js, Express.js, and MongoDB Passport.js, Socket.io, and EJS

➤ Task Manager -

Created a user-friendly task management platform that simplifies task creation, viewing, editing, and removal, complete with categorized status choices (such as pending, in progress, and completed) using Next.js and React.js to demonstrate proficient web development abilities.

➤ Image Gallery-

Developed an image gallery that enables users to easily locate their desired images, showcasing my web development skills with Next.js and React.js.

➤ Toy Store-

The website is based on an online retailer of children's toys. In this Project I try to use the advance level of Vanilla-tilt-JS with hover effect and Scroll Trigger.

➤ Interior design-

On the website, you can browse the newest interior design ideas for your home based on your preferences. I've learned how to use many technologies that have been implemented into the project, including CSS animations, JavaScript, Vanilla-tilt-JS, Swiper JS, Scroll Trigger, and GSAP.

Personal Details:

Father's Name	:	Ram Ji Shukla
